FARM CASH RECEIPTS AND EXPENDITURES - 2002

FLORIDA CASH RECEIPTS

The Economic Research Service, USDA, reports that receipts from Florida agricultural products in 2002 amounted to \$6.85 billion. This is a 2.4 percent increase from the previous year, when cash receipts totaled \$6.69 billion. Cash receipts from all crops increased 6.1 percent from 2001, while cash receipts from all livestock and livestock products decreased by 11.6 percent.

Receipts from all crops accounted for 81.9 percent of all cash receipts. As in previous years, the leading crop commodities were oranges (17.0 percent of all cash receipts), foliage and floriculture (12.8 percent), sugarcane (7.6 percent), and tomatoes (7.4 percent). The leading livestock commodities were milk (5.2 percent of all cash receipts), cattle and calves (4.9 percent), and broilers (2.9 percent).

**FLORIDA AGRICULTURE
CASH RECEIPTS, 2002**

CITRUS

Cash receipts from citrus crops amounted to \$1.46 billion dollars, an increase of 10.3 percent from 2001. Sales of citrus

commodities accounted for 21.4 percent of all sales in Florida. (Receipts for citrus are on a "delivered in" basis without discounting picking and hauling costs.)

Sales of grapefruit were down from \$208 million in 2001 to \$184 million in 2002. Sales from oranges (\$1.16 billion) increased 10.7% from the previous year.

VEGETABLES AND MELONS

Cash receipts from vegetable and melon crops amounted to \$1.57 billion in 2002, up from \$1.42 billion in 2001, and accounted for 22.9 percent of the total cash receipts. Peppers, potatoes, tomatoes and watermelon increased from a year earlier, and squash and sweet corn decreased. Receipts of tomatoes, at \$508 million, accounted for 32.3 percent of all vegetable and melon receipts and 7.4 percent of all cash receipts.

FIELD CROPS

Receipts for field crops amounted to \$632.5 million, up 3.2 percent from last year. Sugarcane, at \$517.9 million, increased 8.4 percent from 2001 and accounted for 82 percent of the field crop receipts and 7.6 percent of all cash receipts. Receipts for corn and tobacco increased and receipts for cotton and peanuts decreased.

LIVESTOCK

Total cash receipts from livestock and livestock products were \$1.24 billion, down 11.6 percent from the previous year and account for 18.1 percent of all cash receipts. Milk receipts account for 29 percent of the receipts in this category, followed by cattle and calves (27 percent) and broilers (16 percent).

^{1/} Final sector output is the gross value of the commodities and services produced within a year. Net value-added is the sector's contribution to the National economy and is the sum of the income from production earned by all factors-of-production. Net farm income is the farm operators' share of income from the sector's production activities. The concept presented is consistent with that employed by the Organization for Economic Cooperation and Development. ^{2/} A positive value of inventory change represents current-year production not sold by December 1. A negative value is an offset to production from prior years included in current-year sales.
